Tutorial for Half-Square Triangles & Square in a Square

Half-Square Triangles

To make Half-Square Triangles you'll see in my cutting instructions to cut some squares and they'll say, "On the back side of the square draw a diagonal line, corner-to-corner, ONE (1) time." When piecing a portion of a quilt block that calls for Half-Square Triangles, place the square that you **didn't** draw the diagonal line on, on the bottom (wrong side up). Then place the square that you **did** write the line on, on the top of the square that you **didn't** write the line on. With right sides together, sew 1/4" on EACH SIDE of the line you drew. Then cut the half-square triangles apart **ON** the line you drew (image on the left shows the line you drew in **red** and the TWO (2) lines to sew in **blue**). You will end up with TWO (2) half-square triangles (images on the right). Press toward the darkest fabric and remember to clip your corners (aka dog ears).

BOMquilts.com's Quilt Note

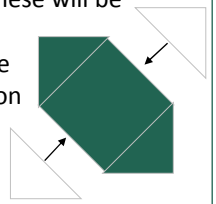

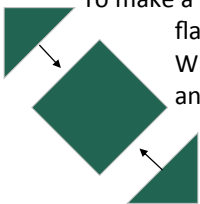

*When making Half-Square Triangles, try cutting your fabric squares 1/4" or 1/2" larger than the pattern calls for. Then trim them down to the *exact* size needed for the quilt block.*

Square in a Square

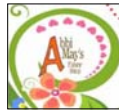

To make a Square in a Square you'll see in my cutting instructions to cut some squares and they'll say, "(These will be flanked by the results of" some smaller squares Cut ONE (1) time or possibly TWO (2) times)".

When piecing a portion of a quilt block that calls for a Square in a Square, you'll take larger square and TWO (2) of the smaller triangles, and sew them (right sides together) as shown in the image on the left (pressing in the direction of the arrows). Then repeat the process with the remaining TWO (2) triangles (image on the right) on the opposite sides of the first triangles.
