Fold and press the rest of the fabric strips in half length-wise, right sides out. Then, sew the folded Yellow 2 strip, right sides together (with the fold toward the center square), as shown:

Next, create your sandwich with 100% cotton batting and backing and quilt the potholder, then add a binding and a holder tab!

Repeat adding the foldy strips until you have used up the 3 yellow and green colors, around the center square. The next round will be the 2" strips, folded and added in the same manner.
